Masters students are allowed to work for 4-5 month and bachelor students are allowed to work for 2-3 month.

#8. What is your future goal?

Ans.

Below are some examples of future goal

Entrepreneur: After completing my study from University name, I would come back to my home town and will start –up my own organization which will focus on its development. I assure that I'll learn all the required skills to run my organization at my level best. I am confident that studying at University name will empower me with sound knowledge of the basic principles of this field and help me acquire the necessary skills to reach my goal. Also my degree in Course from University will give me a strong grounding and a perfect channel to capitalize on my strengths.

Work in MNC: After completing my course, I would like to work with reputed company either at Europe, India or anywhere in world. I wanted to become more successful & progressive in the field of my interest. I am looking forward to hold a secure job in well-reputed companies like ONGC, BHEL, TATA, and many more. I am very much confident that after completing this course I can start my professional career with a good position as an Information System Manager, Marketing Manager, System Developer etc.

Family Business: After completing the course from University name, I will come back to India and join hand into family business. As my father has always run the business in a very simple & traditional way but I want to expand it by implementing new ideas and take our business into next level. (For e.g. as my father is running a provisional store in place, and I want the chain of it to grow not only in my place but some other part of India as well, and then take it into an International level. So to bring an exposure into the business I will need a market research which will help me to understand the market value essential for the business).

Long-term study: I have chosen to pursue Under-graduate study at University name by working under the guidance of the distinguished researchers. I am confident of making an original contribution in the field of my interest. I wanted to excelled well-rounded and exacting undergraduate program and have developed a solid background in Course Name. In turn I shall get intellectual satisfaction and the gratification of becoming a contributor to knowledge through research and the greater personal rewards of learning and discovery. My long-term goal is to be actively involved with research and teaching in an area that I love. I look forward to such an involvement as a faculty member at a reputed University.
