**Ans.**The student should link his academic background and experience with choosing their course for further study.

## **#3.Why did you choose Latvia for further studies?**

**Ans.**

Reference 1:Located along the eastern coast of the Baltic Sea, Latvia is considered a geographic hotspot for its role as a crossroad between the East, West, North and South. Latvia is a multi-ethnic country and rich in different cultural and education traditions. It has been influenced by the varied traditions of its neighboring countries, thus offering a multi-cultural experience for students taking up an education in Latvia. Universities in Latvia offer an advanced education system. Institutions of higher education are small enough to operate functionally and effectively, ensuring each individual student approach to each student. The higher education institutions in Latvia are members of international cooperation within many different fields of study. The education system is very flexible having huge experience to make different educations models. Latvian Institutes offers the benefits of the world class higher education system, majority programs are taught in English, affordable tuition fees and living cost, qualifications accepted across Europe.The education system in Latvia is also heavily involved in multi-national cooperation in the field of education and research, with the aim of further developing student competitiveness in both local and international job markets.

Reference 2: Riga is the capital of Latvia, the language spoken in Latvia is Latvian, but majority speaks in English. Latvia has 60 state & private colleges and Universities. More than 50 of these higher institutions have been established since Latvia became independent from the Soviet Union in 1990. One more interesting factor to study here is that after completing a Master degree, students are welcome to work at Latvia. Most students requires to show an invitation for a job before applying for a visa & work permit but students with some specialized skills may receive a work permit without a firm offer letter. Most of the Latvian institute offers both degree academics & professional, Erasmus program is also available in much University. The Latvian education offers a broad based curriculum and global prospective to equip students with relevant skills and qualification which will work as a spring board to brighter future. Many cafeterias in Latvia serve at least one Vegetarian option, also a student is allowed to cook their own food.

## #8. What is your future goal?

### Ans.

(Below are some examples of future target)

**Entrepreneur:** after completing my study by the name of the university, I would go back to my hometown and start my organization which will focus on its development. I assure you that I will learn all the skills necessary to better manage my organization. I am confident that studying at university will give me a solid knowledge of the basic principles of this field and help me acquire the skills necessary to achieve my goal. Even my degree in Course from University will give me a solid foundation and a perfect channel to capitalize on my strengths.

**Work in MNC:** after completing my course, I would like to work with a renowned company in Europe, India or anywhere in the world. I wanted to become more effective and progressive in the field of my interest. I am looking forward to doing safe work in renowned companies such as ONGC, BHEL, TATA and many others. I am very confident that after completing this course I can start my professional career with a good position as information system manager, marketing manager, system developer etc.

# FAQs to Prepare for University Interview - Study in Latvia

**Family affairs:** after completing the course named after the university, I will return to India and join by hand in the family business. Since my father has always managed the business in a very simple and traditional way, but I want to expand it by implementing new ideas and taking our business to the next level. (For example, since my father runs a temporary shop and I want the chain to grow only in my place, but also in some other part of India, and then take it internationally. So, to bring an exhibition in the sector I will have need market research that will help me understand the essential market value for the business).
